

✦ TKAMS — LMD STUDENT INFORMATION SYSTEM • FRANCOPHONE AFRICA

From three weeks to three hours.

End-of-term deliberation no longer has to consume entire weekends. TKAMS brings grade entry, automated deliberations and verifiable official documents into a single platform — built for universities, colleges and schools.

01 — BEFORE / AFTER

The change shows from the **very first session.**

Every year, the same weeks of chaos. TKAMS replaces that scenario with a single flow — traceable and calm.

✗ Today, without TKAMS

- ✗ Grades scattered across paper, Excel and WhatsApp
- ✗ Averages recomputed by hand, cascading errors
- ✗ Deliberations dragging on for weeks
- ✗ Official documents typed one by one
- ✗ No record of who entered what
- ✗ Disconnected tools, endless re-entry

✓ Tomorrow, with TKAMS

- ✓ One platform, from setup to graduation
- ✓ Averages and decisions computed automatically
- ✓ Deliberations wrapped up in hours
- ✓ Minutes, transcripts and certificates in one click
- ✓ Full audit trail on every action
- ✓ Everything connected, zero re-entry

“TKAMS removes this scenario. One platform, from setup to promotion.”

✦ — WHY TKAMS, NOT SOMETHING ELSE

LMD by design

Teaching units, ECTS, resits — native. Not a repurposed generic ERP, nor a souped-up spreadsheet.

Your rules, no code

Each institution configures its deliberation — no dependency on a developer.

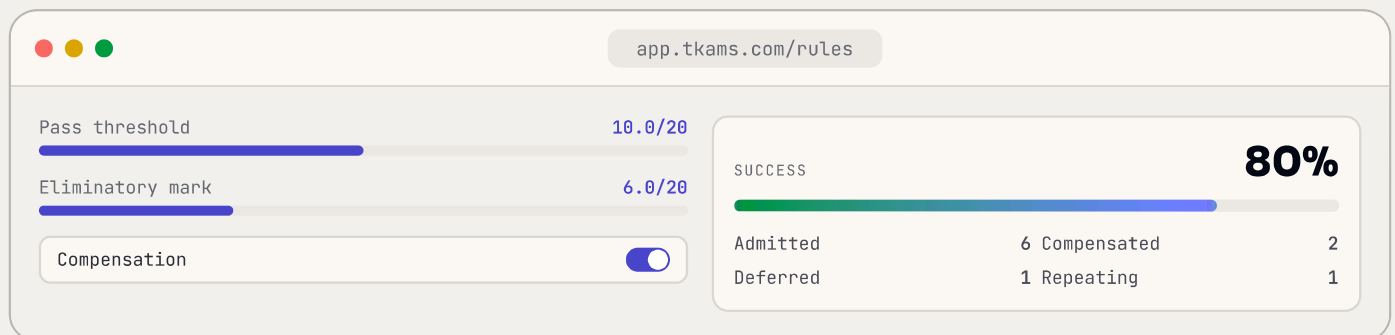

End to end

From catalog to graduation, all in one — no more patchwork of tools.

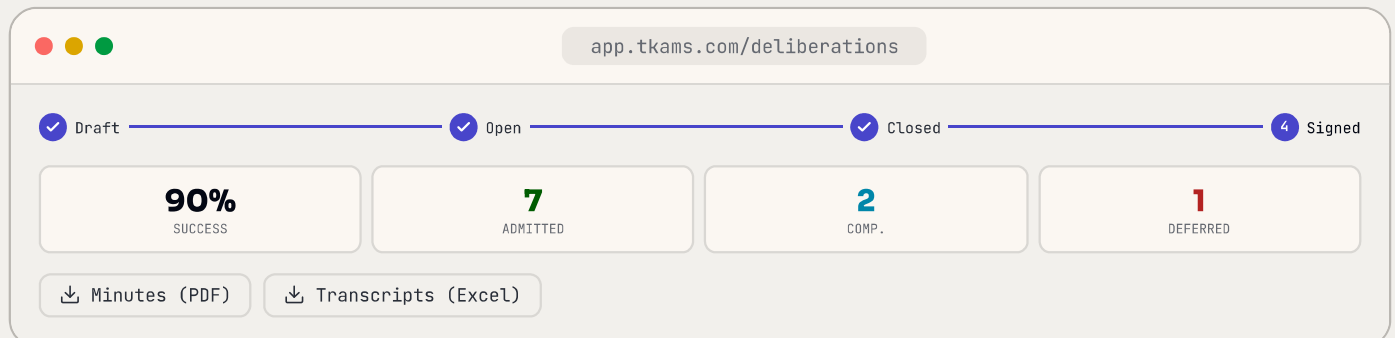

02 — THE PRODUCT IN ACTION

Three screens, the whole cycle.

From entering a grade to signing the minutes — here is how TKAMS works for your teams.

Rules engine — your criteria, re-evaluated live.

Deliberation — from draft to signed minutes, exports included.

Interactive demos online. Faithful previews of the interface — every screen is playable live at tkams.com/produit, sign-up required.

03 — CAPABILITIES OVERVIEW

35+ modules, six domains.

An integrated platform — not a collection of tools. The whole academic cycle covered, all in one.

Catalog & structure

08

- Faculties
- Programs
- Cycles & levels
- Teaching units
- Classes
- Program options
- Regional centers
- Years & semesters

Enrollment & students

05

- Enrollments
- Student profiles
- Course enrollments
- Auto reg. numbers
- ECTS credits

Assessments

06

- Exam types
- Scheduling
- Grade entry
- Tracked delegation
- Sessions & resits
- Controlled access

Deliberation & promotion

06

- Rules engine
- Deliberations
- Credit ledger
- Promotion rules
- Auto promotion
- Year transitions

Documents & exports

06

- Academic documents
- Transcripts & certificates
- 24 export templates
- Export eligibility
- Excel / PDF
- DIPLOMATION (QR)

Governance & integrations

08

- 7 RBAC roles
- Audit trail
- Approval workflows
- Notifications
- Batch jobs
- Signed API & webhooks
- Multi-institution
- Bilingual EN/FR

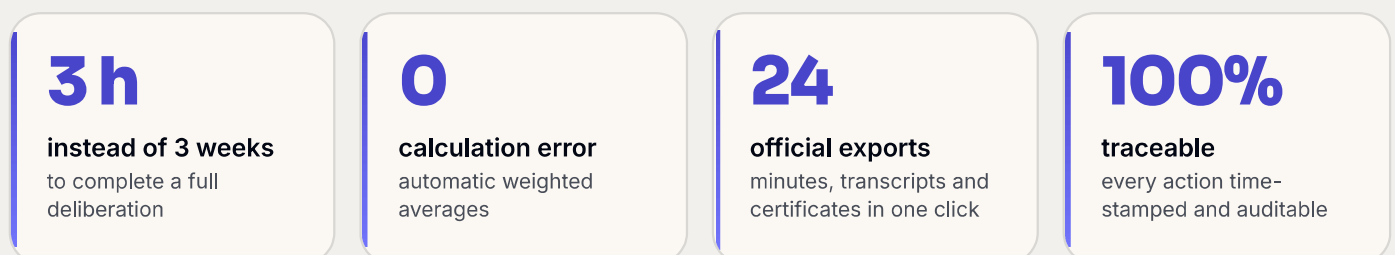

04 — HOW IT WORKS

Four steps, from enrollment to diploma.

✦ — CONCRETE BENEFITS

Gains, from year one.

Indicative orders of magnitude – actual gains vary with the size and organization of each institution.

05 — FOR EVERY ROLE

An answer for every role.

TEACHERS

Your grades in minutes, not weeks.

- ✓ Weighted coursework + exam entry
- ✓ Averages & decisions, live
- ✓ Excel import, transcript export
- ✓ Locked after approval

DEANS & MANAGEMENT

Run deliberations in a single flow.

- ✓ Configurable deliberation rules
- ✓ Approval workflows + audit
- ✓ Per-cohort dashboard
- ✓ Official minutes in one click

ADMINISTRATION

From catalog to graduation, all traced.

- ✓ Multi-institution hierarchy
- ✓ Auto-generated reg. numbers
- ✓ RBAC roles and logging
- ✓ Native DIPLOMATION integration

06 — PRICING

Simple pricing, per student.

No hidden fees. Data migration and onboarding included from the start.
